

SOFTWARE DESIGN IN GROUP EEY 4189

Project name

CAREER PORTAL

Something bigger is on your way... 

Project Idea

Our project is to build a website/mobile application for students who wish to continue their higher education in Sri Lanka

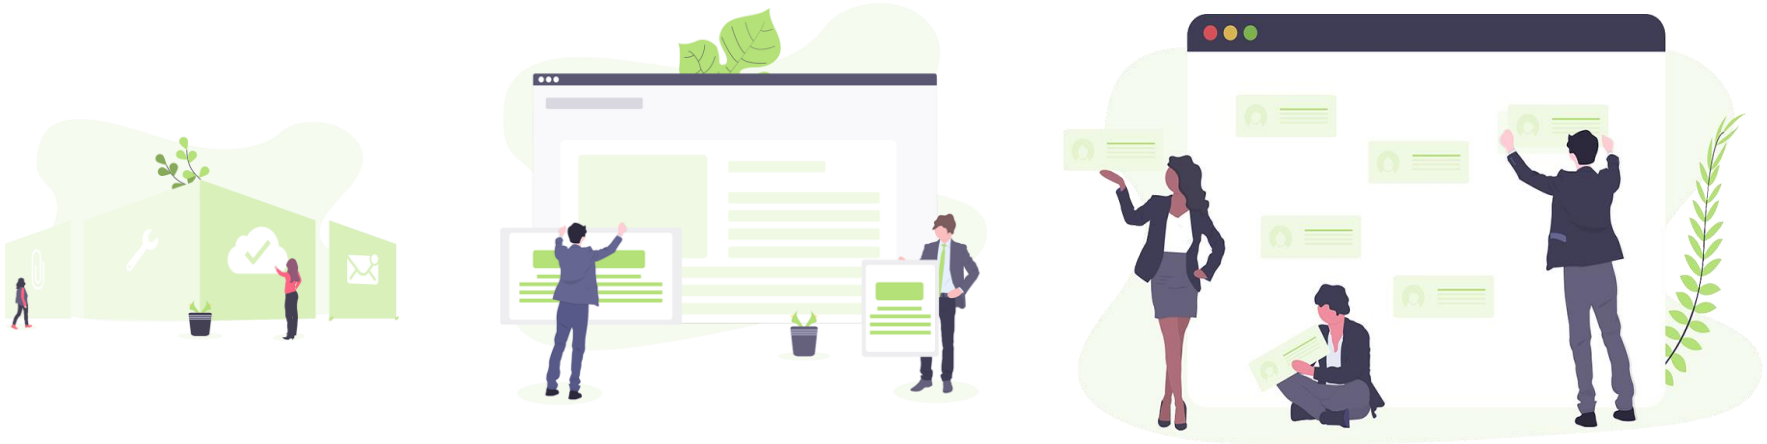

We enable students to explore all their study option in one place and find the best and suitable study program that fit their needs, preference and goals.

Students can find government, private or semi-government universities, and higher educational institution based on their A/L result and z score.
